## **ENVIRONMENTAL POLICY**

Thompson Valves Ltd is a professional and environmentally conscious organisation, which acknowledges the impact that our operations may potentially have on the environment. The clear objective of Thompson Valves Ltd is to minimise any impact on the environment by:

- Promoting a strong culture of environmental protection;
- Preventing pollution, reducing waste and ensuring that measures are implemented to protect and preserve natural habitats, flora and fauna;
- Considering the effects that our operations may have on the local community;
- Taking action to eliminate any potentially adverse environmental impacts;
- Providing all employees with the necessary resources, equipment, information, instruction and training to fulfil the requirements of the policy; whilst informing them of their individual and collective responsibility contained within the policy and the benefits of the Company's sound environmental performance;
- Promoting environmental awareness amongst our suppliers, contractors and partners by implementation of operational procedures;
- Ensuring effective and expedient incident control, investigation and reporting;
- Continually improving our management and performance through setting objectives, targets and plans and their regular review.

Thompson Valves Ltd will fully comply with the duties placed upon it within the requirements of Statutory Legislation and other requirements to which the Company subscribes.

The Environmental Management System has been established to be compliant with the requirements of BS EN ISO 14001:2004.

This policy will be displayed on notice boards throughout the site and is publicly available on the Company Website.

Signed .....

Mr D Whitfield - Operations Director
